

# SHOCKWAVE NOW AVAILABLE IN MASTERTON

## Bringing world-class locally

As our trusted and valued referrer, we wanted you to be the first to know that we've just become the first clinic in Wairarapa to introduce **shockwave treatment** permanently in our clinic!

It was the combination of fantastic feedback from our colleagues in Australia & the UK, combined with the promising studies and clinical evidence at the randomised controlled trial level that saw us (very successfully) test the **Chattanooga RPW Shockwave**. After achieving very encouraging results, we knew we needed to make it a permanent addition to Masterton Foot Clinic.

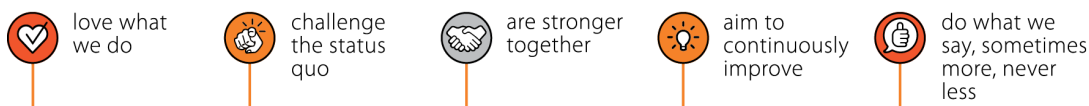

### What This Means For Our Mutual Patients

If you have patients that have longstanding chronic pain or injury, there's a good chance we'll be able to help improve their outcome and recovery.

We love this treatment because it's **non-invasive, doesn't use medications or injections and stimulates the body's own processes** to heal and repair any damage.

For more information, including a copy of the clinical evidence, or flyers for your patients, please contact Adam on [adam@mastertonfootclinic.co.nz](mailto:adam@mastertonfootclinic.co.nz)

Our Values – We:
